FUSC Update-Federal Universal Service Charge

Effective October 1st, 2017 the Federal Universal Service Charge (FUSC) contribution factor will be increasing from 17.1% to 18.8%. The FUSC amount is calculated by multiplying the contribution factor times your interstate service charges. This factor may change quarterly, depending upon the needs of the Federal Universal Service Fund (USF). The USF is a government mandated program that is designed to help make phone service affordable and available to all Americans, including consumers with low income, those living in areas where the costs of providing telephone service is high, and to schools, libraries, and rural health care providers.
