Wireless Router—What is it and what does it do?

A wireless router, also known as a wi-fi router, allows your internet connection to communicate with devices in your home without the use of a wire.

Most of us rely on technology devices for our day-to-day activities, averaging as many as 20 devices connected via wireless router. It's important to pay attention to your router's performance and recognize when it's time to replace it. General recommendation is to replace a router after three to five years. A quality new router can improve wireless speeds, efficiency and network security.

To experience the full benefits of the internet service to your home Bernard Telephone routers are available for lease.

Why lease a router?

- ◇ No setup hassles. Our techs will set up and install the router in your home.
- ◇ For superior performance, maintenance, including firmware updates, provided by our techs
- ◇ Remote monitoring of your wi-fi signal.
- ◇ Remote and on-site router support provided by our techs.
- ◇ Replacement of the leased router if it fails or becomes outdated.

\$ 7.95
month plus tax

If you have questions or to schedule installation of a leased router call our office at 563-879-3203.

Happy Thanksgiving

Our office will be closed for Thanksgiving

Thursday, November 24th

Friday, November 25th.

Thank you to all the veterans
and families for your service
